

Equipping pastors to abide in and feed their congregations from God's Word.

Ghana: Abel (posing above in his Romans Project t-shirt) was at the Ghana's Challenge National Pastors and Church Leaders Conference for 2 days at the beginning of September to recruit/enroll prospective RP participants. This conference is a "gathering of apex religious leaders", as Abel put it. While there, he managed to recruit 17 pastors, among whom he met the fastest reader and writer in the person of Ps. Christian. Once he had accepted the challenge, it took him only 7 days to complete it! His senior pastor Rev Amenyo had introduced Christian to Abel; at the conference as the one to take over for him once he reaches Ghana Baptist Convention retiring age this year. Abel recently went to Immanuel Baptist Church to present Christian his mp3 player and certificate. It was such a joyous time that Dr. Edward M., who is Ghana's

most astute politician, veteran medical doctor and preacher was present. Upon hearing Ps. Christian share his testimony to the church and watching the little ceremony, he embraced Abel and promised that he too would take up the challenge.

Kenya: Charles managed to climb the hills of Mt Elgon on foot for many hours in mid-September to reach some pastors gathered there. One of these pastors had coordinated with others to read and write the book of Romans. This pastor had been a student in Pastors Training Program under Dr. Marshall in Kitali and had encouraged others to take up the Romans Project challenge. Eight were able to complete the challenge, even with limited resources. They didn't have mon-

ey to buy new exercise books, so they filled their pages to the very edge, as shown on the right in this picture. Not only that, but the main pastor was the only one who had an old bible. Charles asks that we would pray for these churches on top of Mt. Elgon to get hard copies of the Bible. He was very encouraged by the passion and eagerness for the word that this group showed.
