

Equipping pastors to abide in and feed their congregations from God's Word.

**Zambia:** Zinga has been encouraging a 2016 RP graduate who was formerly a Muslim to continue telling his friends about the Romans Project. Pastor B has started sharing the RP challenge with some of his friends who are still in Islam. He tells them, "I will not open the Bible with you but go and read only one book 20 times and I will be checking up on you." To quote Zinga, "The Lord's grace has no barrier!" **Please pray** this pastor's friends will take up the challenge by reading the book of Romans twenty times, and that God's word would open their eyes to His amazing grace. Also, **please pray** for Zinga this month as he meets with some inmates who have been doing the Romans Project in prison. Pray they would be encouraged to persevere and that God's word would change them.

Gatherings in Burkina Faso in October

Gatherings in Burkina Faso in November

**Botswana:** In November, Kenosi was able to hold three graduation ceremonies in Serongo, Shakawy & Sepopa, three cities in the Okavango Delta where he has focused his RP activity this year. Some of the graduates have themselves reached out to other pastors deeper in the Delta. Also, in Francistown, Pastor M is leading a group of 20 leaders and pastors through the final stages of reading and writing. Kenosi will travel there this month to award them with Mp3s and certificates.

**Testimony from a graduate in Burkina Faso (translated from French)**

*At the onset of the project, I was a bit scared that I would find reading the book 20 times too challenging. But after reading it one, two, and three times, I began to find it more and more interesting and kept going. The transcribing of the whole text also seemed so daunting to me at first, since it had been so long since I had written a long text by hand. However, I soon saw that slowing down my study of Romans by writing out the text made me "see" what the verses actually mean. I came to really appreciate Romans 12.*
